Dear Joshua:

Many thanks for your letter of February 28 and the suggestions contained therein. Douglas has done his first successful transductions since we received the LT2 and LT22 cultures. He now is convinced that transductions can be done but as yet, we have had no luck with the multiphasic types. If we meet with any success I will inform you.

Please tell Bruce that if he has an opportunity to come by Atlanta on his way home, we will be very happy to see him.

With kindest regards, I am

Sincerely yours,

Philip R. Edwards
